

ONSIGHT WORKSPACE FIELD INTELLIGENCE.

The Onsight Workspace content management solution provides a secure, central repository for field data, images, recordings and calls, as well as external content such as manuals and schematics. With detailed permission controls, enterprises ensure that authorized users can access the content they need to perform their work.

INTEGRATED WITH ONSIGHT CONNECT, WORKERS CAN:

- Enable automatic uploads from Onsight Connect to source content added
- Auto-tag content using AI Computer Vision
- Collect IoT data
- Enforce optional automatic upload controls such as a requirement for wireless or wired network access
- Manually upload content from within the file system
- See the upload status of all Onsight calls, images and recordings
- View the upload queue and adjust content uploads
- Launch Workspace to find and view relevant content in Connect
- Snip sections of manuals or content to share

USING ONSIGHT WORKSPACE, ENTERPRISES CAN:

- Create and manage categories of content for teams
- Enforce versioning of content for audit controls
- Share content from authorized users
- View telestration within Onsight videos and images
- Upload product manuals, schematics or training content
- Create favorites and view recent uploads for quick access
- Request notifications of new or updated files
- Search tags and titles to find relevant content quickly
- Create detailed user and group permissions in conjunction with Onsight Platform Manager
- View advanced Admin reports to manage content and usage
- Secure content from external parties such as customers
